College of Sciences and Engineering

Welcome to the College of Sciences and Engineering

The below links require a University of Tasmania staff or student login to access.
Note for editors

There is some great information on wiki basics available on the Information Technology wiki. If you’re an administrator and new to this system then it’s an excellent place to start.

If you have any questions, please contact College Marketing Manager - James Fagg.

IMPORTANT NOTE ABOUT CREATING PAGES: Each space/page on a wiki must have a unique name. For example, this means that each school cannot have a space called “documents” under their school. If you’re editing for your school please use an abbreviation of your school name before any sub-spaces that you create.
